

Student relationships with their teachers and peers

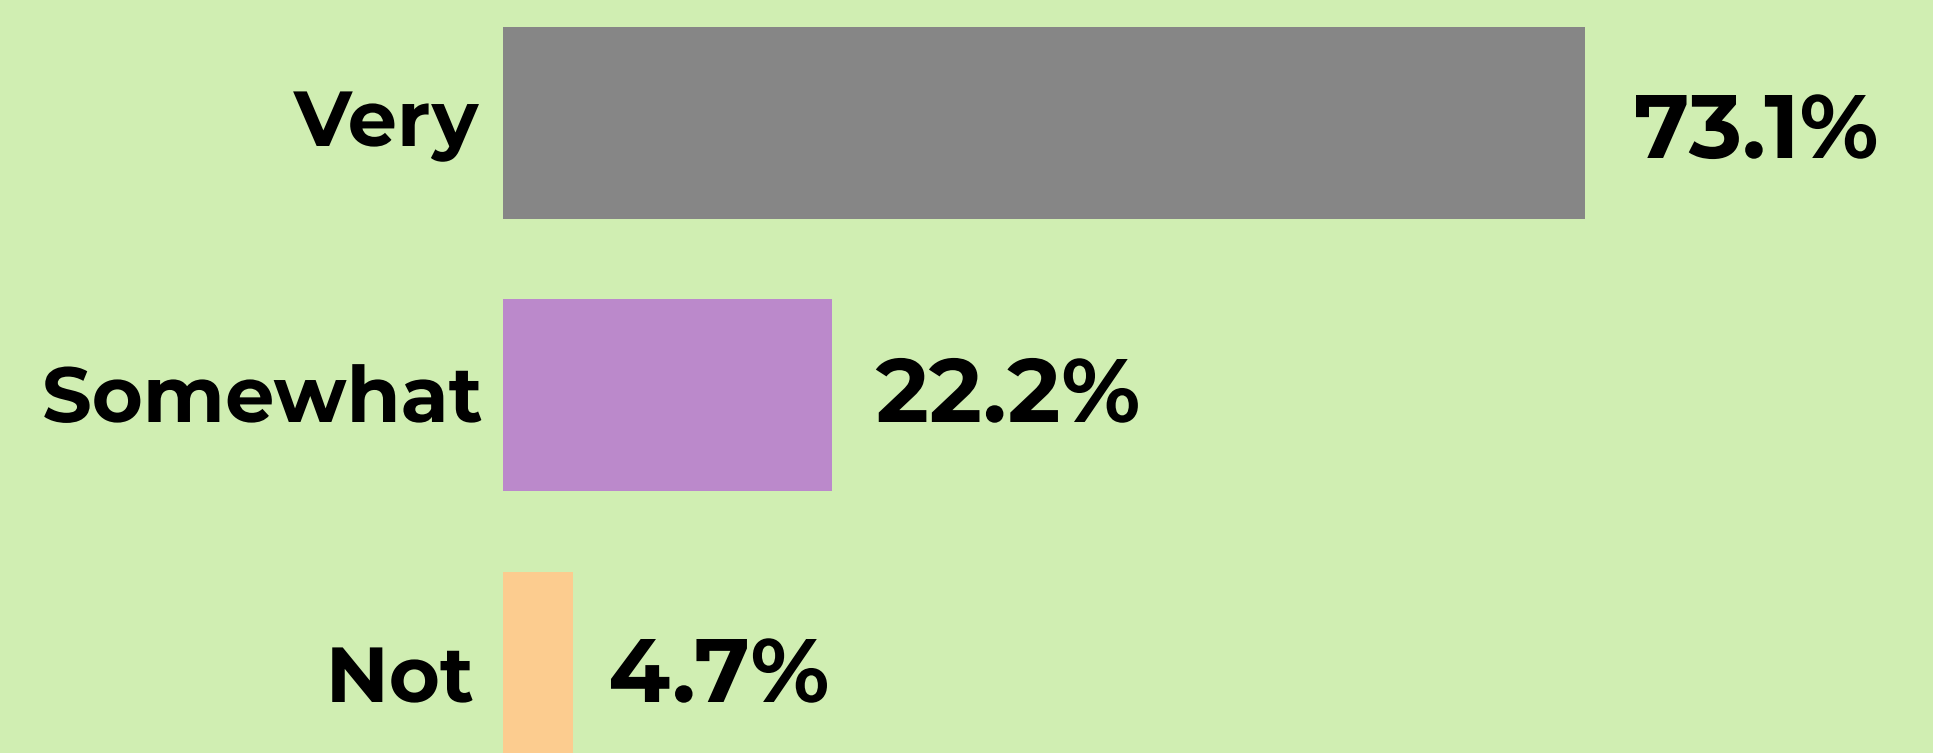

The Western Australian Government recently surveyed 1812 students across Years 3 to 12 on student engagement. Here, we look at some of the results of this survey for students in Years 7 to 12.

Below are proportions of responses to some of the survey questions:

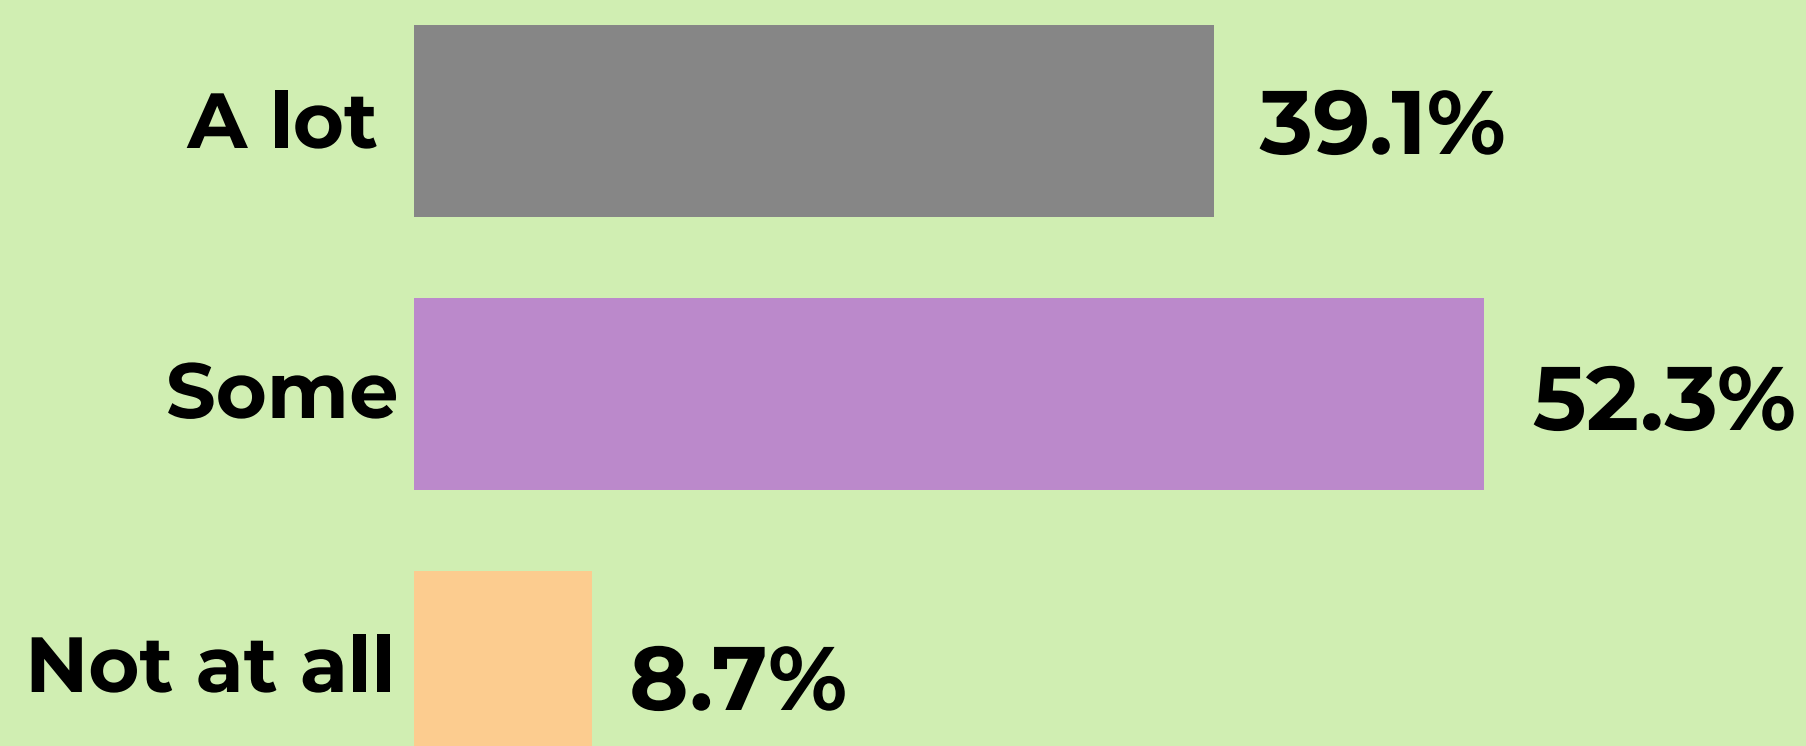

Do you get along with your teachers?

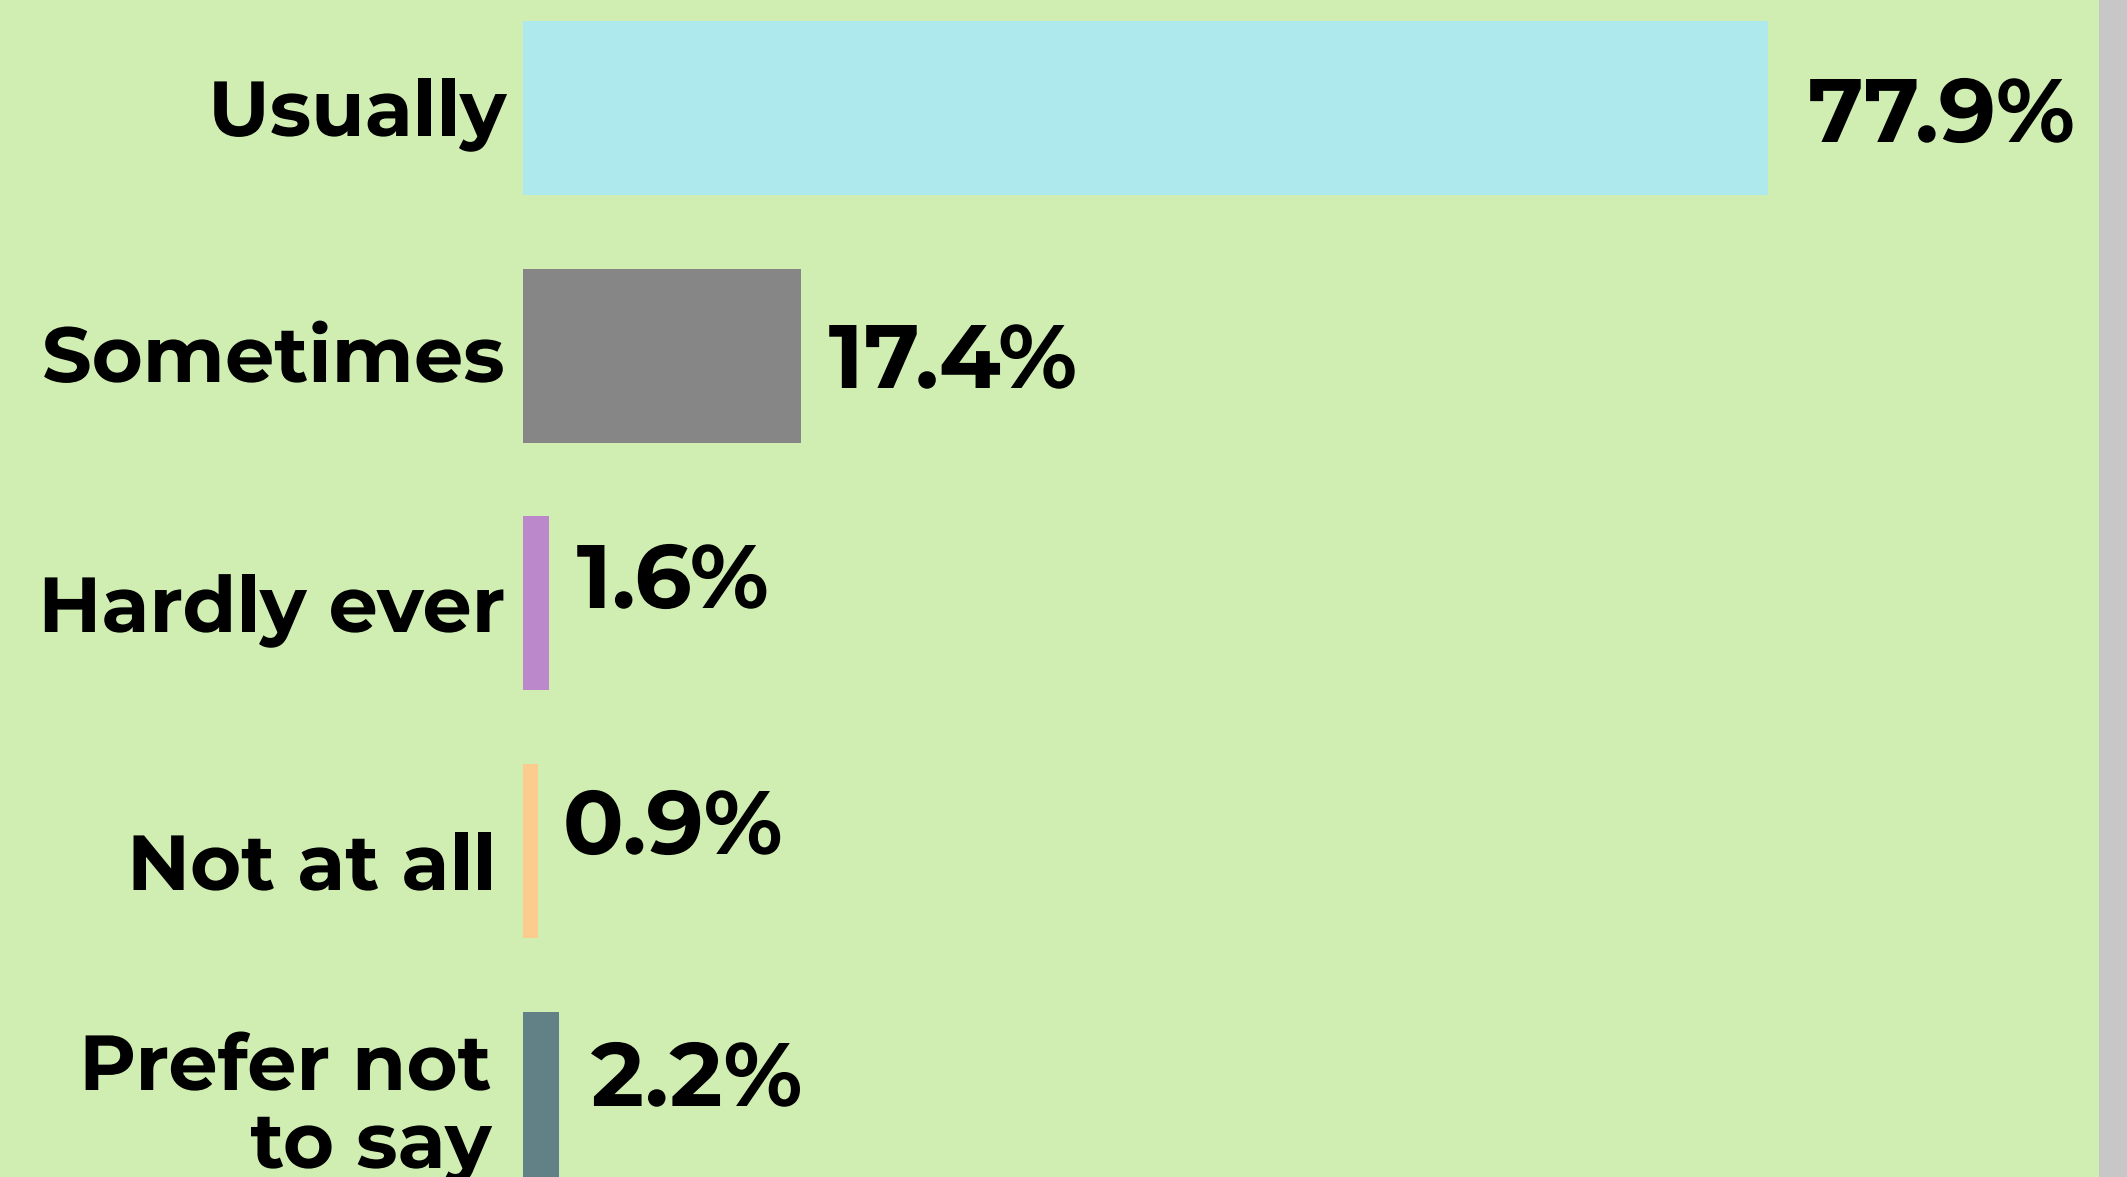

How important is it for you to have a close friend in your class?

How much do you feel that teachers care about you?

Do you get along with your classmates?
