A teacher's weekly workload

The OECD Teaching and Learning International Survey (TALIS 2018) asked teachers about their working hours. Below are the average number of hours teachers in Australia reported having spent on the following activities in the most recent calendar week prior to the survey, including during weekends, evenings and other out-of-class time.

- **7.3** Lesson planning & preparation
- **19.9** Teaching
- **4.1** General admin work
- **2.5** Counselling students *
- **1.8** Extracurricular activities
- **2.6** Other work tasks
- **1.7** Professional development activities
- **1.3** Parent/carer communication & cooperation
- **4.9** Marking/correcting student work
- **2.4** Participation in school management
- **3.7** Team work & dialogue with colleagues

*Includes student supervision, mentoring, virtual counselling, career guidance and behaviour guidance
