Longitudinal Surveys of Australian Youth

Longitudinal Surveys of Australian Youth is a program of surveys of young people jointly managed by ACER and the Commonwealth Department of Education, Training and Youth Affairs. The surveys focus on the education and labour market experiences of groups of young Australians, beginning from their middle years of secondary schooling. Data collected include basic demographic variables, as well as information about educational and labour force participation and experiences extending over a number of years.

The present form of the LSAY program commenced in 1995 with a national sample of Year 9 students. The program also brings together earlier longitudinal studies conducted by ACER under the Youth in Transition (YIT) program, and by the Commonwealth under the Australian Longitudinal Survey (ALS) and Australian Youth Survey (AYS) programs. The data collected through LSAY are deposited with the Social Science Data Archives (SSDA) for use by other researchers.

The 1998 Year 9 Cohort (Y98)

In 1998, a nationally representative sample of approximately 14,000 Year 9 students was selected to form the second cohort of the Longitudinal Surveys of Australian Youth. The sample was constructed by randomly selecting two Year 9 classes from a sample of schools designed to represent state and sector. Reading and numeracy tests were administered to students in their schools to provide information on early school achievement for use in later analyses of educational and labour market participation. Students also completed a background questionnaire about their educational and vocational plans and attitudes to school.

Details on the 1998 survey are provided in LSAY Technical Report No. 19. In 1999 sample members were administered a brief mail survey sent to their home addresses. Details on the 1999 (Wave 2) survey are included in LSAY Technical Report No. 22.

The 2000 Y98 Telephone Survey

The 2000 Y98 Telephone Survey was conducted with the 11,121 students who formed the 1999 sample. Of that group, 9548 useable interviews were completed successfully (86% of the active sample). There were 363 refusals or terminations (3% of the active sample). The modal age of the sample in 2000 was 16 years, and most were enrolled in Year 11.

This was the first year of telephone interviewing for this cohort. The survey instrument collects data on their educational and labour market. It has a particular emphasis on the subjects being studied at school, including VET and those that involve structured workplace learning. The survey involves around 25 minutes of telephone interview time. The survey form used in the telephone interviewing is included as Appendix 1 in this report.

Dimensions of data set

Number of respondents: 9548

Number of variables: 486 (365)

Three hundred and sixty-five variables are included in this report. The variables dealing with the subjects undertaken at school and the levels at which they were undertaken are not reported here.

The coding framework for the Area of Study variables is available upon request from ACER.

The coding framework for Institutions is not publicly available.

The reference for the coding framework for the ASCO variables is:

ACER staff working on LSAY: John Ainley, Nicole Fleming, Sue Fullarton, Kylie Hillman, Stephen Lamb, Phil McKenzie, Julie McMillan, Gary Marks, Julie Zubrinich

LSAY Steering Committee: The LSAY program operates under the direction of a Steering Committee which sets overall policy and approves the analytical program. The Committee has 10 members representing national and state authorities and researchers concerned with education, training, and employment in Australia.

LSAY Management Group: The Management Group has operational responsibility for the major decisions affecting the LSAY program. It comprises William Thorn (Chair), Geoff Parkinson and Paul White from DETYA, and John Ainley, Phil McKenzie and Gary Marks from ACER.

LSAY Reference Group: The Reference Group, which comprises representatives from DETYA and DEWRSB, advises ACER on priorities in the analytical program and survey development.
